

Affordable Dental Clinics in Vermont

There are many free or low-cost dental clinics in Vermont. They offer a discount or sliding-scale fee. A sliding scale means that your cost is based on your income. The list below is organized by county.

How to use the list:

1. Call the clinics located in your county.
2. If the clinics in your county are not accepting new patients or cannot provide the dental services that you need, call clinics outside your county. Look for the clinics who accept patients who live anywhere in Vermont. They are marked with a star.

Definitions

- 1 - **Sliding scale** means that the cost of a service will depend on your income.
- 2 - **FPL** means Federal Poverty Level (FPL). The current FPL guidelines are [here](#).
- 3 - **Basic** dental care may include checkups, cleanings, sealants, and x-rays.
- 4 - **Restorative** dental care may include fillings, crowns, bridges, implants, and dentures.
- 5 - **An extraction** is when a dentist removes a tooth entirely.

Addison County
